**2022-2023**

**SEWA**

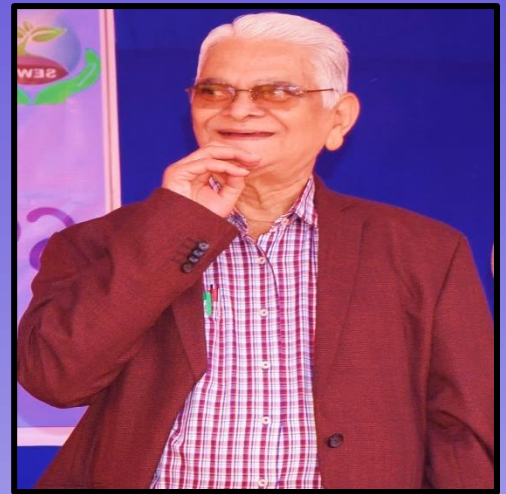

**AGRICULTURE | HORTICULTURE | LIVESTOCK | NRM | NPM | MARKETING | MILLET MISSION**

## From the desk of President

The SEWA, as a social organization, has made profound and far-reaching efforts to bring about social well-being. It has worked in collaboration with the government and non-government agencies, and the result is manifestly visible, particularly in rural areas of Jharsuguda district. The dream of our organization is to achieve affluence in the community by providing profitable livelihood to the people and enhance the standard of living. Over 75% of people of the area are directly dependent on agriculture and farming. Keeping this fact in view, we have adopted a three-dimensional approach to achieve our goal farming, non-farming, and off-farming.

Activities relating to farming are land-based, interwoven with agriculture and allied matters. Non-farming activities include dairy, poultry, and fish farming as well as mushroom cultivation etc. In off-farming activities we train people in skill development in driving, plumbing, pump and motor-cycle repairing, and the like. We can proudly assert that the SEWA has been able to develop a good number of women entrepreneurs in the community.

I would like to take this opportunity to thank all our supporters, donors, partners and advisers who have extended their helping hand to our organization in all the undertakings. With goodwill such as this, we hope to continue our journey in transforming the society and the well-being of the people in it.

**Mr. Lalit Mohan Dash**

With faith and good will,

A handwritten signature in blue ink that reads "Lalit Mohan Dash".

(Mr. Lalit Mohan Dash) President

Social Education for Women's

Awareness - SEWA

## From the desk of Secretary

SEWA is a proactive community-based organization working for the most vulnerable and socio-economically marginalized sections of the population in the state of Odisha since 1991-92. Its long and arduous journey of over 25 years, SEWA has laid down several mile stones and supplementing efforts of the government for the upliftment of rural poor excluded and marginalized communities. Each passing year has witnessed some new initiatives and innovations.

**Mr. Sushil Kumar Dash**

SEWA is focusing on sustainable livelihood, food and nutrition security, agriculture and allied activities, Natural re- source management, Watershed management, Vocational training for the development of the poorest of the poor with a special emphasis on women, children and vulnerable. SEWA is a pioneer in building institutions, developing models, inclusive in its development approach and promote sustainable development process.

With faith and good will

A handwritten signature in black ink, appearing to be 'Sushil Kumar Dash', written in a cursive style.

**(Mr. Sushil Kumar Dash)**

**Secretary  
Social Education for Women's  
Awareness-SEWA**

## About the Organization

SEWA a non-profit, non-political, non-religious and non-government organization was established by the initiative of Mr. Sushil Kumar Dash, a founder member, with a group of committed activists. SEWA, as a Non-Governmental Development Organization, was registered in the year 1991-92 under Societies Registration Act XXI of 1860. SEWA as a formal organization working in various development fields with disadvantaged segments of society. SEWA's development activities focus principally on women and child development and the development of their economics. SEWA's main focus is on livelihood, Natural Resource Management, Water-shed Development, Sanitation & Hygiene Promotion, self-governance and gender equity. Its aim is to therefore create an opportunity for these people to be included in a world that they have largely been left out from.

### Vision

SEWA will attempt for a transformation in socio cultural and economic life of the people by bridging the gap between cast, religion and gender disparities and economics status of disadvantage rural community.

### Mission

To build up a healthy society through progressive development and welfare through people's participation in the process of transformation and build institutions to scale up the capacity of people towards sustainable development with a priority to the disadvantaged groups such as landless, marginal and small land holders, SC/ST and women.

### Objective

- To support small and marginal farmers in adoption of new agriculture technologies and mobilize them towards Non-Pesticide Management, Natural Farming and Organic farming.
- To promote and strengthening community institutions
- To impart skill development program for self-employment for women and youth.
- To promote Water sanitation and Hygiene (WASH)
- To build capacity of community on management of natural resources.
- To build skill of youth farmers towards sustainable agriculture and allied sector.

Agriculture Production Cluster, SEWA, Jharsuguda

## Success stories for sweet corn

### CASE STUDY

As per implementation of APC project under Kishorenagar Block SEWA Organization and District Mineral fund (DMF)Angul, it is working as implementing agency and it has formed 25 producer groups focusing on double income of 3000 small and marginal women farmers.

Earlier, farmers in Nakchi village used to cultivate maize in 1 or 2 phases and they sold it in market at very low price per piece. Because of this, they had to face many problems and also suffer losses. For the first time after APC project came, a meeting was held on sweet corn cultivation in the place of maize. Our CRP and Cluster-Coordinator explained to them to cultivate sweet corn on a little area in trile basis. Some of those farmers took up and cultivated sweet corn. This directly affected the financial condition of the farmers.

After formation of PG in Nakchi village our Cluster-Coordinator and CRP regularly conduct meeting and listen the problems of the farmers and taking steps to improve in their financial condition at the grass root level. Then SEWA team organized a meeting separately at both the PG level and discussed on sweet corn cultivation. Cost benefit analysis, package of practice, seed diversity and NPM practices were discussed.18 farmers decided to cultivate sweet corn in 5 acer.

After finalized to cultivate sweet corn the farmers want some financial support through Mission shakti loan or OLM loan. So, our team support them for get loan from bank with lowest interest. Then SEWA team discussed with the seed venders and bring 2 varieties of seeds like, sweet dream-1 and golden cup-f1 and regularly monitoring the fields and suggested them to use NPM, care of plants and diseases treatment in every time. Farmers also very much accented with maize cultivation that to they are very much excited for seen the success of sweet corn cultivation. they sold their product in a high price at the same time selling maize in a poor price, they are very much happy and interested to cultivate in a large area in the next season in the place of maize.

Farmers are very much thankful to SEWA team and they want to cultivate sweet corn in a very large number of area and try to selling at distance market for better income.

## Case Study of Mrs. Jambobati Nath.....

Agriculture Production Cluster (APC) Project is a Livelihood under DMF, Sundargarh which is been partner by SEWA, Jharsuguda. This project was started in a vision of supporting small and marginal farmers and increases doubling their income. This project has been working in 6nos.GP areas of Sadar block, Sundargarh district.

**Mrs. Jambobati Nath** is a resident of Palidihi Village which is an operational area of APC Project. She is an active farmer of PALIDIHI Producer Group. She stays with her family with husband, children. She cultivated vegetables but it was in less amount only to feed her family. She was not interested in vegetable cultivation because she didn't have any idea on package of practice and market study. But after the project was introduced in Palidihi she came forward to be a part of it. She expressed his interest to be the member of PALIDIHI farmer group and gave her time in all activity related to the project. In the Kharif season of financial year 2022-23 She got some

technical knowledge from our APC project through PG about Bitter Gourd cultivation in the process of trellis system. Then She interested to convert from traditional farming to trellis system. PRADAN supported the inputs of Net and Polymer wire for the 50 decimal of land and from this area she got 3 quintals of Bitter Gourd Production and sold through collective marketing with the better price and got Rs.9000.00.

She expressed her gratitude towards Agriculture Production Cluster (APC) project for identifying the ability in her and providing her all technical as well as material support and She hopes, she will learn many more things from this project.

**M POWERED PROJECT

## *A Case Studies .....*

### **Millet Cultivation: Turned Livelihood option for Saraswati Patel**

Odisha Millet Mission project supported by PD, ATMA Jharsuguda which is implemented by SEWA Kumuradihi, Jharsuguda. This project was started with a vision of Supporting farmers and increases in their income. This project is working in 8GP of 36 Villages of Laikera Block of Jharsuguda Dist. After the implementation of this

project many farmers came forward to be a part of it. Their enthusiasm and activeness gave this project a boost to go forward in a positive direction. Mrs. Saraswati Patel a 64 years old progressive farmer at Bhatlaida village of Bhatlaida GP, Laikera Block of Jharsuguda Dist.

Traditionally, she was cultivating Finger Millet in small patch of land, most of the year. In Kharif Season She Mainly Focus on Paddy cultivation but this year she adopts millet cultivation. Traditionally, she mainly focused on fertilizer and chemical pesticide for their cultivation so that their cost of cultivation increased. Odisha millet Mission has supported farmers like Saraswati to revive millets in their farm and on plate. Regular training Programme were organized for skill enhancement of farmers. The Training, Incentive support and procurement encourages farmers to adopt millet cultivation. During this year she increased millet cropping Area. She uses two method of cultivation like transplanting SMI in 1Ha & LT in 0.4 Ha . She gets Rs 12,317.50 as incentive for millet Cultivation. She invested only Rs7,500/-to cultivate and harvested 9.3 Qntls of finger millet. From 1.4 Ha of land, he received total income Rs 36,202/-with net profit Rs28,702/. All the family members often consume millet on daily basis. She also offered millet to his neighbors and relatives. Their family members eat millet in daily Basis. The approach of farm to plate has been implemented throughout the Programme delivery, planning and implementation stages under the OMM has played a key role in ensuring successful implementation of the Programme at the community level. She expressed that Millet Mission is played a main role in future for sustainable income of the farmers. She also said I will adopt millet cultivation in more area instead of paddy cultivation.
